A Captain's Duty

Somali Pirates, Navy SEALs, and Dangerous Days at Sea

A Captain's Duty tells the life-and-death drama of Captain Richard Phillips, the Vermont native who was held captive by pirates on a tiny lifeboat off Somalia's anarchic, gun-plagued shores.

"I share the country's admiration for the bravery of Captain Phillips and his selfless concern for his crew. His courage is a model for all Americans." —President Barack Obama

It was just another day on the job for fifty-three-year-old Richard Phillips, captain of the Maersk Alabama, a United States-flagged cargo ship that was carrying, among other things, food and agricultural materials for the World Food Program. That all changed when armed Somali pirates boarded the ship. The pirates didn't expect the crew to fight back, nor did they expect Captain Phillips to offer himself as a hostage in exchange for the safety of his crew. Thus began the tense five-day standoff, which ended in a daring high-seas rescue when U.S. Navy SEALs opened fire and picked off three of the captors.

A story of adventure and courage, *A Captain's Duty* provides the intimate details of this high-seas hostage-taking—the unbearable heat, the death threats, the mock executions, and the escape attempt. When the pirates boarded his ship, Captain Phillips put his experience into action, doing everything he could to safeguard his crew. And when he was held captive by the pirates, he marshaled all his resources to ensure his own survival, notwithstanding intense physical hardship and an escalating battle of wills with the pirates. This was it: the moment where training meets instinct and where character is everything. Richard Phillips was ready.

Solomon Northup *Twelve Years a Slave*

A captivating narrative of the life of freedom and slavery experienced by one African-American man prior to the American Civil War.

Twelve Years a Slave is the autobiographical account of Solomon Northup, an African-American who was born free in New York in the early 1800s. In 1841, Solomon Northup was captured and forced into slavery for a period of twelve years. Northup's account is detailed in its account of life on a cotton and sugar plantation and the daily routine of slave life during the first part of the 19th century. The book describes the daily life of slaves in Bayou Beof, their diet, the relationship between master and slave, the means that slave catchers used to recapture them, and the ugly realities that slaves suffered.

Comparable to the accounts of Frederick Douglass, Harriet Ann Jacobs, and William Wells Brown, *Twelve Years a Slave* is a captivating narrative of the life of freedom and slavery experienced by one African-American man prior to the American Civil War.

JFK Has Been Shot

A Parkland Hospital Surgeon Speaks Out

In this gripping, firsthand account, accomplished surgeon Dr. Charles Crenshaw relates how he attempted to save the lives of John F. Kennedy and Lee Harvey Oswald in November 1963.

On November 22, 1963, Dr. Charles Crenshaw, an accomplished surgeon, tried to save John F. Kennedy's life—and then days later, the life of the alleged assassin, Lee Harvey Oswald. His gripping, firsthand account contradicts the Warren Commission and years of public misperception to illuminate a chapter in American history long cloaked in conspiracy.

Writing with eye-opening immediacy, Dr. Crenshaw takes listeners into the emergency room to share the critical events at Parkland Hospital as he lived them. Now updated, his searing testimony punctures myths and shatters a cover-up of massive proportions.

The Gathering Wind

Hurricane Sandy, the Sailing Ship *Bounty*, and a Courageous Rescue at Sea

From the author of *The Forgotten 500* comes the heartbreak, thrilling, and inspirational story of the impact of Superstorm Sandy upon the *Bounty* and its crew.

In October 2012, a replica of the famous HMS *Bounty*, an eighteenth-century tall sailing ship, was on a collision course with a storm that would become the largest hurricane ever recorded in the Atlantic—a clash that would prove dramatic, tragic, perplexing, and ultimately one of the most unforgettable stories of Superstorm Sandy.

Crewed by an eclectic team of seafarers, the *Bounty* was led by Robin Walbridge, their highly respected captain with decades at the helm, whose actions—sometimes questionable—decided the fate of his ship and crew.

Departing from Connecticut as the storm raced north from the Caribbean, Walbridge attempted to outmaneuver Sandy, heading the *Bounty* southeast. As violent gusts tossed the wooden ship, the crew fought to save their beloved *Bounty*—and finally to save themselves. When waves, wind, and encroaching water finally overtook the ship in an area known as the Graveyard of the Atlantic, the crew was suddenly tossed into the churning sea. The *Bounty* was gone, but their fate was still to be determined.

The men and women of a Coast Guard station in North Carolina summoned the courage to fly into hundred-mile-per-hour winds while the residents of the Eastern Seaboard were fleeing or bracing for the hurricane's impact. Through hours of white-knuckle flying, with crew members thrown about their aircraft and rescue swimmers jumping into thirty-foot seas, the Coast Guard accomplished one of its most memorable rescues ever.

Based on interviews with *Bounty* survivors and unfettered access to Coast Guard rescue team members, *The Gathering Wind* offers not only the first but the most complete account of this heartbreak, thrilling, and inspirational story.

Writing on the Wall

Social Media—The First 2,000 Years

In this fascinating book, the author of *A History of the World in 6 Glasses* explores the evolution of social media over the course of two millennia.

Papyrus rolls and Twitter have much in common, as each was their generation's signature means of "instant" communication. Indeed, as Tom Standage reveals in his scintillating new book, social media is anything but a new phenomenon.

From the papyrus letters that Roman statesmen used to exchange news across the Empire to the advent of hand-printed tracts of the Reformation to the pamphlets that spread propaganda during the American and French revolutions, Standage chronicles the increasingly sophisticated ways people shared information with each other, spontaneously and organically, down the centuries. With the rise of newspapers in the nineteenth century, then radio and television, "mass media" consolidated control of information in the hands of a few moguls. However, the Internet has brought information sharing full circle, and the spreading of news along social networks has reemerged in powerful new ways.

As engaging as it is visionary, *Writing on the Wall* draws on history to cast new light on today's social media and encourages debate and discussion about how we'll communicate in the future.

Collision 2012

Obama vs. Romney and the Future of Elections in America

Dan Balz, longtime Washington Post correspondent and bestselling coauthor of *The Battle for America 2008*, presents an inside view and analysis of the Obama-Romney presidential race.

Four years ago, a bright young presidential candidate named Barack Obama campaigned on a theme of hope and change, and made history. Today, he finds himself in another bitter, divisive presidential race but without the buzzwords. Instead, an embattled president struggles with a dysfunctionally divided Congress, a controversial healthcare bill, a decade-long war, and a stagnant economy.

Obama's Republican challenger, Mitt Romney, former corporate tycoon and former governor of Massachusetts, faces his own controversies in the form of vague policies, fluctuating positions, and questions about his business practices in the private sector. Romney's personal fortune and business background seemed at odds with the Republican base until he named Wisconsin congressman, Tea Party darling, and fiscal conservative Paul Ryan as his running mate.

Using sources deep inside both campaigns and on the campaign trail through primary and battleground states, *Washington Post* correspondent Dan Balz writes with a keen political mind and a seasoned reporter's ear. He traces the highs and lows of the Obama presidency as well as the ruthless Republican primary as both laid the groundwork for one of the most crucial, contentious elections of our time. *Collision 2012* puts the race for the White House in context and explores just what the election means for the future of the democratic process and America.

Life at the Speed of Light

From the Double Helix to the Dawn of Digital Life

The renowned scientist and author of *A Life Decoded* examines the creation of life in the new field of synthetic genomics.

In 2010, scientists led by J. Craig Venter became the first to successfully create "synthetic life"—putting humankind at the threshold of the most important and exciting phase of biological research, one that will enable us to actually write the genetic code for designing new species to help us adapt and evolve for long-term survival. The science of synthetic genomics will have a profound impact on human existence, including chemical and energy generation, health, clean water and food production, environmental control, and possibly even our evolution.

In *Life at the Speed of Light*, Venter presents a fascinating and authoritative study of this emerging field from the inside—detailing its origins, current challenges and controversies, and projected effects on our lives. This scientific frontier provides an opportunity to ponder anew the age-old question "What is life?" and examine what we really mean by "playing God." *Life at the Speed of Light* is a landmark work, written by a visionary at the dawn of a new era of biological engineering.

James MacGregor Burns

Fire and Light

How the Enlightenment Transformed Our World

Pulitzer Prize-winning and bestselling historian James MacGregor Burns explores the most daring and productive intellectual movement in history, the European and American Enlightenment.

In this engaging history, James MacGregor Burns brings to vivid life the two-hundred-year conflagration of the Enlightenment, during which audacious questions and astonishing ideas tore across Europe and the New World, transforming thought, bringing down governments, and inspiring visionary political experiments that would ultimately reach every corner of the globe. Unlike most historians, Burns pays particular attention to America's intellectual revolution, beginning and ending his story on American soil. He discovers the origins of our domestic Enlightenment in men like Benjamin Franklin, John Adams, and Thomas Jefferson and their early encounters with incendiary European ideas about liberty and equality, and he highlights the role of thinkers like James Madison and Alexander Hamilton. After all, it was the American founders, alone among Enlightenment thinkers, who actually carried through with their ideas.

Today the same questions Enlightenment thinkers grappled with have taken on new urgency around the world: in the blossoming Arab Spring, in the former Soviet Union, China, and in the United States. What should a nation be? What should a citizenry expect from its government? Who should lead and decide? How can citizens effect change? What is happiness, and what can the state contribute to it? Burns's exploration of the ideals and arguments that formed the bedrock of our nation, shines a new light on these ever-important questions.

Five Billion Years of Solitude

The Search for Life Among the Stars

From science writer Lee Billings, an intimate history of Earth and the quest for life beyond the solar system.

Since its formation nearly five billion years ago, our planet has been the sole living world in a vast and silent universe. Now Earth's isolation is coming to an end. Over the past two decades, astronomers have discovered thousands of "exoplanets" orbiting other stars, including some that could be similar to our own world. Studying those distant planets for signs of life will be crucial to understanding life's intricate mysteries right here on Earth.

In a firsthand account of this unfolding revolution, Lee Billings draws on interviews with top researchers. He reveals how the search for other Earth-like planets is not only a scientific pursuit but also a reflection of our culture's timeless hopes, dreams, and fears.

This is a compelling story of the pioneers seeking the meaning of life in the infinite depths of space.

Old Man River

The Mississippi River in North American History

From Paul Schneider, the author of *The Adirondacks*, a fascinating account of how the Mississippi River shaped America.

In *Old Man River*, Paul Schneider tells the story of the river at the center of America's rich history—the Mississippi. Some fifteen thousand years ago, the majestic river provided Paleolithic humans with the routes by which early man began to explore the continent's interior. Since then, the river has been the site of historical significance, from the arrival of Spanish and French explorers in the 16th century to the Civil War. George Washington fought his first battle near the river, and Ulysses S. Grant and William T. Sherman both came to President Lincoln's attention after their spectacular victories on the lower Mississippi.

In the 19th century, home-grown folk heroes such as Daniel Boone and the half-alligator, half-horse, Mike Fink, were creatures of the river. Mark Twain and Herman Melville led their characters down its stream in *The Adventures of Huckleberry Finn* and *The Confidence-Man*. A conduit of real-life American prowess, the Mississippi is also a river of stories and myth.

Schneider traces the history of the Mississippi from its origins in the deep geologic past to the present. Though the busiest waterway on the planet today, the Mississippi remains a paradox—a devastated product of American ingenuity, and a magnificent natural wonder.

Jack London

An American Life

From noted Jack London scholar Earle Labor, a revelatory look at the life of the great American author—and how it shaped his most beloved works.

Jack London was born a working class, fatherless Californian in 1876. In his youth, he was a boundlessly energetic adventurer on the bustling West Coast—an oyster pirate, a hobo, a sailor, and a prospector by turns. He spent his brief life rapidly accumulating the experiences that would inform his acclaimed bestselling books *The Call of the Wild*, *White Fang*, and *The Sea-Wolf*.

The bare outlines of his story suggest a classic rags-to-riches tale, but London the man was plagued by contradictions. He chronicled nature at its most savage but wept helplessly at the deaths of his favorite animals. At his peak the highest paid writer in the United States, he was nevertheless forced to work under constant pressure for money. An irrepressibly optimistic crusader for social justice and a lover of humanity, he was also subject to spells of bitter invective, especially as his health declined. Branded by shortsighted critics as little more than a hack who produced a couple of memorable dog stories, he left behind a voluminous literary legacy, much of it ripe for rediscovery.

In *Jack London: An American Life*, the noted Jack London scholar Earle Labor explores the brilliant and complicated novelist lost behind the myth—at once a hard-living globe-trotter and a man alive with ideas whose passion for seeking new worlds to explore never waned until the day he died. Returning London to his proper place in the American pantheon, Labor resurrects a major American novelist in his full fire and glory.

Jim Lacey and Williamson Murray

Moment of Battle

The Twenty Clashes That Changed the World

Two modern masters of military history make their case for the twenty most pivotal battles of all time, in a riveting trip through the ages to those moments when the fate of the world hung in the balance.

In the grand tradition of Edward Creasy's classic *Fifteen Decisive Battles of the World*, James Lacey and Williamson Murray spotlight only those engagements that changed the course of civilization. In gripping narrative accounts they bring these conflicts and eras to vivid life, detailing the cultural imperatives that led inexorably to the battlefield, the experiences of the common soldiers who fought and died, and the legendary commanders and statesmen who matched wits, will, and nerve for the highest possible stakes. From the great clashes of antiquity to the high-tech wars of the twenty-first century, here are the stories of the twenty most consequential battles ever fought.

Historians and armchair generals will argue forever about which battles have had the most direct impact on history. But there can be no doubt that these twenty are among those that set mankind on new trajectories. Each of these epochal campaigns is examined in its full historical, strategic, and tactical context—complete with edge-of-your-seat you-are-there battle re-creations. With an eye for the small detail as well as the bigger picture, Lacey and Murray identify the elements that bind these battles together: the key decisions, critical mistakes, and moments of crisis on which the fates of entire civilizations depended. Some battles merely leave a field littered with the bodies of the fallen. Others transform the map of the entire world. *Moment of Battle* is history written with the immediacy of today's news, a magisterial *tour d'horizon* that refreshes our understanding of those essential turning points where the future was decided.

The Siege

68 Hours Inside the Taj Hotel

In the tradition of *Black Hawk Down*, this is the definitive account of the 2008 terrorist attacks in Mumbai.

Mumbai, 2008. On the night of November 26, Lashkar-e-Toiba terrorists attacked targets throughout the city, including the Taj Mahal Palace Hotel, one of the world's most exclusive luxury hotels. For sixty-eight hours, hundreds were held hostage as shots rang out and an enormous fire raged. When the smoke cleared, thirty-one people were dead and many more had been injured. Only the courageous actions of staff and guests—including Mallika Jagad, Bob Nichols, and Taj general manager Binny Kang—prevented a much higher death toll.

With a deep understanding of the region and its politics and a narrative flair reminiscent of *Midnight in Peking*, journalists Cathy Scott-Clark and Adrian Levy vividly unfold the tragic events in a real-life thriller filled with suspense, tragedy, history, and heroism.

Japan 1941

Countdown to Infamy

A groundbreaking history that considers Pearl Harbor from the Japanese perspective—and is certain to revolutionize how we think of the war in the Pacific.

When Japan attacked the United States in 1941, argues Eri Hotta, its leaders, in large part, understood they were entering a conflict they were bound to lose. Availing herself of rarely consulted material, Hotta poses essential questions overlooked by historians in the seventy years since: Why did these men—military men, civilian politicians, diplomats, the emperor—put their country and its citizens in harm's way? Why did they make a decision that was doomed from the start? Introducing us to the doubters, bluffers, and schemers who led their nation into this conflagration, Hotta brilliantly shows us a Japan never before glimpsed—eager to avoid war but fraught with tensions with the West, blinded by traditional notions of pride and honor, nearly escaping disaster before it finally proved inevitable.

Richard A. Serrano

Last of the Blue and Gray

Old Men, Stolen Glory, and the Mystery That Outlived the Civil War

Journalist Richard A. Serrano details the mystery surrounding the last two veterans of the Civil War—one real and one a fraud.

In the late 1950s, as America prepared for the Civil War centennial, two very old men lay dying. Albert Woolson, 109 years old, slipped in and out of a coma at a Duluth, Minnesota, hospital, his memories as a Yankee drummer boy slowly dimming. Walter Williams, at 117, blind and deaf and bedridden in his daughter's home in Houston, Texas, no longer could tell of his time as a Confederate forage master. The last of the Blue and the Gray were drifting away; an era was ending.

Unknown to the public, centennial officials, and the White House too, one of these men was indeed a veteran of that horrible conflict and one, according to the best evidence, nothing but a fraud. One was a soldier. The other had been living a great, big lie.

Writers Between the Covers

The Scandalous Romantic Lives of Legendary Literary Casanovas, Coquettes, and Cads

As this exploration of the scandalous love lives of famous authors shows, what happened off the page was often a lot spicier than what was written on it.

Why did Norman Mailer stab his second wife at a party? Who was Edith Wharton's secret transatlantic lover? What motivated Anaïs Nin to become a bigamist?

Writers Between the Covers rips the sheets off these and other real-life love stories of the literati—some with fairy tale endings and others that resulted in break-ups, breakdowns, and brawls. Among the writers laid bare are Agatha Christie, who sparked the largest-ever manhunt in England as her marriage fell apart; Arthur Miller, whose jaw-dropping pairing with Marilyn Monroe proved that opposites attract, at least initially; and T. S. Eliot, who slept in a deckchair on his disastrous honeymoon.

From the best break-up letters to the stormiest love triangles to the boldest cougars and cradle-robbers, this fun and accessible volume reveals literary history's most titillating loves, lusts, and longings.

The Girl Factory

A Memoir

Karen Dietrich's lyrical, absorbing memoir traces her coming of age in a small factory town near Pittsburgh.

It's 1985 in a small factory town near Pittsburgh. Eight-year-old Karen's parents are lifelong workers at the Anchor Glass plant, where one Saturday, an employee goes on a shooting spree, killing four supervisors, then himself. This event splits the young girl's life open, and like her mother, she begins to seek comfort in obsessive rituals and superstitions.

This beautifully evocative memoir chronicles the next fourteen years, as Karen moves through girlhood, adolescence, and young adulthood. It illuminates small-town factory life; explores a complicated mother-daughter bond; thoughtfully unfolds a smart but insecure girl's coming of age; achingly recounts her attempts to use sex to fit in; and ultimately uncovers the buried secret from her childhood—a medical file with an unbearable report.

The Girl Factory deftly travels the intersections of memory and origin. Karen's body remembers details her mind has tried to control. As the young woman mines her interior landscape for answers, certain questions persist. Where does memory live—in the body or the mind? And can you rewrite the story of your past?

The Last Rhinos

My Battle to Save One of the World's Greatest Creatures

In this inspiring, heartfelt account, Lawrence Anthony, conservationist and coauthor of *The Elephant Whisperer*, traces his efforts to save the endangered northern white rhino.

When Lawrence Anthony learned that the northern white rhino, living in the war-ravaged Congo, was on the very brink of extinction, he knew he had to act. If the world lost the sub-species, it would be the largest land mammal since the woolly mammoth to go extinct. In *The Last Rhinos*, Anthony recounts his attempts to save these remarkable animals.

The demand for rhino horns in the Far East has turned poaching into a dangerous black market that threatens the lives of not just these rare beasts, but also the rangers who protect them.

The northern white rhino's last refuge was in an area controlled by the infamous Lord's Resistance Army, one of the most vicious rebel groups in the world. In the face of unmoving government bureaucracy, Anthony made a perilous journey deep into the jungle to try to find and convince them to help save the rhino.

An inspiring story of conservation in the face of brutal war and bureaucratic quagmires, *The Last Rhinos* will move animal lovers everywhere.

50 Foods

The Essentials of Good Taste

Edward Behr, founder of the acclaimed magazine the *Art of Eating*, presents the definitive guide to the foods every food lover must know.

50 Foods presents simple, practical information about buying, using, preparing, and enjoying. Behr focuses on aroma, appearance, flavor, and texture to determine what “the best” means for each food. He tells you how to select top quality—signs of freshness and ripeness, best season, top varieties, proper aging. If the way to prepare, serve, or eat something is little known, then he explains it (how to open an oyster, why the best way to cook green beans is boiling, how to clean a whole salted anchovy, when to eat and when to discard the rind of a cheese). Behr also names the most complementary foods and flavors for each of these fifty marvelous foods and the wines that go with them.

The fifty selections provide a broad sensory range for the modern gourmet. Most of the foods are raw materials, but some have been fermented or otherwise transformed—into bread, ham, cheese. Six of the fifty are cheeses. As Behr explains, cheese is probably the best food, as wine is the best drink. Behr argues that food tastes more delicious when it is closer to nature. Skilled low technology is almost always superior to high technology. But with scientific insight, the old methods can be refined to achieve more consistent high quality.

We can't always have the best, but with the information in this book we can eat better every day. Knowing good food is part of a complete understanding of the world—part of a full enjoyment of nature, a full experience of the senses, a full life.

Mike Dowling enlisted with the U.S. Marine Corps in 2001. He was awarded the Navy and Marine Corps Achievement Medal for his Iraq operations with his dog, Rex. Mike currently lives in Los Angeles, where he serves on the advisory board of two Wounded Warrior nonprofit organizations.

Rob Shapiro can be heard narrating such audiobooks as the bestselling *The Information: A History, a Theory, a Flood* by James Gleick, *Frank: The Voice* by James Kaplan, and the fantasy noir *Low Town* by Daniel Polansky. He performed several seasons of radio comedy on Minneapolis Public Radio and voiced the titular lion in *Leo the Lion*.

Mike Dowling

Sergeant Rex

The Unbreakable Bond Between a Marine and His Military Working Dog

Sergeant Mike Dowling's engrossing account of an unbreakable bond between man and dog takes us into the searing 130-degree heat, the choking dust, and the ever-present threat of violent attack in Iraq's infamous Triangle of Death.

"In Iraq we put our lives in each other's hands (and paws) day after day. We took care of each other no matter what. Rex and I have a bond that will last for the rest of our born days. If ever there was a Marine who lived up to Semper Fidelis, the motto of the Marine Corps, it's Rex."

Deployed to Iraq's infamous Triangle of Death in 2004, Sergeant Mike Dowling and his military working dog Rex were part of the first Marine Corps military K9 teams sent to the front lines of combat since Vietnam. It was Rex's job to sniff out weapons caches, suicide bombers, and IEDs, the devastating explosives that wreaked havoc on troops and civilians alike. It was Mike's job to lead Rex into the heart of danger time and time again, always trusting Rex to bring them both back alive.

Filled with harrowing tales of knife-edge bomb-detection work, including an extraordinary baptism by fire, *Sergeant Rex* is a heart-pounding account of how an unbreakable human-canine bond helped Mike and Rex to stay focused on their mission and save countless lives. Dowling takes us into the searing 130-degree heat, the choking dust, and the ever-present threat of violent attack that seemed to permeate Iraq's streets. We experience Dowling's visceral fear of walking down an IED-laden alley where dismemberment or death can come with any footprint, only his trusted partner, Rex, by his side.

Picture Perfect

The Jodi Arias Story: a Beautiful Photographer, Her Mormon Lover, and a Brutal Murder

Shanna Hogan, award-winning author of *Dancing with Death*, presents a shocking tale of true crime.

Travis Alexander was a handsome, hard-working, practicing Mormon who lived in Mesa, Arizona. His good looks and easygoing manner made him popular with everyone, especially the ladies. So when he was found with a bullet wound in the face and his throat slashed, the brutal murder sent shock waves throughout his community. Who could have done something so sinister?

But soon a suspect was singled out—Jodi Arias. A beautiful, aspiring photographer, Jodi had been in a long-distance relationship with Travis the year before. But Travis wasn't interested in a serious commitment; he was seeing several women during that time. When he broke up with her, that didn't stop Jodi from leaving California, moving just a few miles away from Travis's home, and inserting herself into his daily life. Investigators found one piece of startling evidence in Travis's home that implicated Jodi. But in a bizarre turn of events, Jodi would claim self-defense. Was she a victim—or a devious femme fatale?

Vinny Gorgeous

The Ugly Rise and Fall of a New York Mobster

Veteran crime author Anthony M. DeStefano tells the riveting story of the last true believer in the Mob's cult of brotherhood and how he was betrayed by the only man he ever trusted.

A vain man of good looks, small means, and no family links to the mob, Vincent "Vinny Gorgeous" Basciano steadily worked his way up to acting boss of the Bonanno crime family, becoming its leader when official boss Joseph Massino went to the clink in 2003. But at a time when the Mob was crawling with secret operatives and informants caving to government pressure to flip, Basciano obeyed the code of La Cosa Nostra. "I got faith in one guy," he told a group of mobsters during a secretly taped meeting. That man was Joseph Massino, head of the Bonanno borgata. But for all his loyalty, Basciano was still a hot-headed, cold-blooded killer, which led to his arrest. Then, in a remarkable betrayal that shook the Five Families to their foundation, Massino secretly cooperated with the FBI—the first official boss ever to roll over. As a result, Basciano faced the death penalty, but a federal jury, disturbed by the prosecution's use of criminal informants, reached a surprising verdict. Veteran crime author Anthony M. DeStefano tells the riveting story of the last true believer in the Mob's cult of brotherhood and how he was betrayed by the only man he ever trusted.

In the President's Secret Service

Behind the Scenes with Agents in the Line of Fire and the Presidents They Protect

Never before has a journalist penetrated the wall of secrecy that surrounds the U.S. Secret Service, that elite corps of agents who pledge to take a bullet to protect the president and his family.

Secret Service agents, acting as human surveillance cameras, observe everything that goes on behind the scenes in the president's inner circle. Ronald Kessler reveals what they have seen, providing startling, previously untold stories about the presidents, from John F. Kennedy and Lyndon Johnson to George W. Bush and Barack Obama, as well as about their families, Cabinet officers, and White House aides.

Kessler portrays the dangers that agents face and how they carry out their missions—from how they are trained to how they spot and assess potential threats. With fly-on-the-wall perspective, he captures the drama and tension that characterize agents' lives.

Kessler discloses assassination attempts that have never before been revealed. He shares inside accounts of past assaults that have put the Secret Service to the test, including a heroic gun battle that took down the would-be assassins of Harry S. Truman, the devastating day that John F. Kennedy was killed in Dallas, and the swift actions that saved Ronald Reagan after he was shot.

While Secret Service agents are brave and dedicated, Kessler exposes how Secret Service management in recent years has betrayed its mission by cutting corners, risking the assassination of President Barack Obama, Vice President Joe Biden, and their families. Given the lax standards, "It's a miracle we have not had a successful assassination," a current agent says.

Since an assassination jeopardizes democracy itself, few agencies are as important as the Secret Service. Only tight-lipped Secret Service agents know the real story, and Kessler is the only journalist to have won their trust.

The Kennedy Detail

JFK's Secret Service Agents Break Their Silence

For the first time ever, the true story of the critical events leading up to and following the assassination of President John F. Kennedy, by the Secret Service agents who were firsthand witnesses to one of America's greatest tragedies.

Even today, almost five decades after John F. Kennedy was slain, the public continues to be captivated by the "Kennedy Curse" and new theories about what really happened on that fateful day in 1963. For nearly fifty years former Secret Service agent Clint Hill has lived with the unimaginable guilt of losing a president on his watch and has obeyed an honor code of silence, refusing to contribute to any books about the assassination. Until now.

Hill was just eight feet from President Kennedy when bullets pierced the president's head right before his eyes. Covered with blood, Agent Hill pushed Jackie Kennedy into the back seat. Clinging to the trunk of the open-top limousine as it sped away from Dealey Plaza to Parkland Hospital, he slammed his fist in anger, as he looked back to the agents in the follow-up car. His eyes, filled with despair, told them what they already knew.

Including contributions from over forty agents who were on the Kennedy Detail from November 1960 to November 1963 and those who knew them, never-before-published letters written by Jackie Kennedy in the immediate aftermath of the shooting, the bizarre unpublished story about a film Jackie made in September 1963 with the on-duty Secret Service agents about an assassination of the president, and the original November 18, 1963, Tampa security report from the author's personal files, which conspiracy theorists have long claimed was destroyed by the Secret Service, *The Kennedy Detail* provides an unfiltered look at the events surrounding this pivotal moment in American history.

James W. Douglass

JFK and the Unspeakable

Why He Died and Why It Matters

James W. Douglass sheds new light on the Kennedy assassination and its significance, taking listeners from the Oval Office to the fateful presidential motorcade in Dallas and exposing the "Unspeakable" forces behind it all.

At the height of the Cold War, JFK risked committing the greatest crime in human history: starting a nuclear war. Horrified by the specter of nuclear annihilation, Kennedy gradually turned away from his long-held Cold Warrior beliefs and toward a policy of lasting peace. But to the military and intelligence agencies in the United States, who were committed to winning the Cold War at any cost, Kennedy's change of heart was a direct threat to their power and influence. Once these dark "Unspeakable" forces recognized that Kennedy's interests were in direct opposition to their own, they tagged him as a dangerous traitor, plotted his assassination, and orchestrated the subsequent cover-up.

Douglass takes listeners into the Oval Office during the tense days of the Cuban Missile Crisis, along on the strange journey of Lee Harvey Oswald and his shadowy handlers, and to the winding road in Dallas where an ambush awaited the President's motorcade. As Douglass convincingly documents, at every step along the way these forces of the Unspeakable were present, moving people like pawns on a chessboard to promote a dangerous and deadly agenda.

How the Unsolved Murder of a Doctor, a Secret Laboratory in New Orleans and Cancer-Causing Monkey Viruses are Linked to Lee Harvey Oswald, the JFK Assassination and Emerging Global Epidemics

In this eye-opening exposé, Edward T. Haslam presents evidence of a complex web of medical secret-keeping that began with the handling of evidence in the JFK assassination.

The 1964 murder of a nationally known cancer researcher sets the stage for this gripping exposé of medical professionals enmeshed in covert government operations over the course of three decades. Following a trail of police records, FBI files, cancer statistics, and medical journals, this revealing book presents evidence of a web of medical secret-keeping that began with the handling of evidence in the JFK assassination and continued apace, sweeping doctors into coverups of cancer outbreaks, contaminated polio vaccine, the arrival of the AIDS virus, and biological weapon research using infected monkeys.

Baggage Claim

A Novel

Heralded by the press and millions of theatergoers for his eleven wildly popular musical stage plays, five-time NAACP award-winning playwright David E. Talbert leaps onto the publishing scene with his debut novel, a big-hearted story about friendship, family, and the relentless pursuit of love.

Baggage Claim gives you a first-class peek into the wacky world of Montana Moore, a thirty-five-year-old flight attendant with enough baggage from her past relationships to fill an entire Samsonite showroom. Montana is an incurable romantic. A dreamer. The kind of woman who has her head in the clouds while her heart splatters swiftly to the ground.

With her mother having just tied the knot for a record-breaking fourth time and her baby sister, Sheree, rushing to jump the broom, five-time maid of honor Montana is dangerously close to becoming not only the oldest, but the only woman in her entire family never to be married.

Having convinced herself that there's no way in heaven or hell she's showing up at her sister's Christmas Eve engagement party without a prospect of her own, Montana concocts her wildest and most romantically ridiculous plan yet: a thirty-day, thirty-thousand-mile trek in search of a husband.

Will it be Damon Diesel, a young hip-hop producer whose motto is "Making the green scream and the dolla holla"? Or will she win over the Reverend Curtis P. Merewether, pastor and founder of Greater House of Deliverance, Tabernacle of Praise, Worship, and Miracles? Of course Langston Jefferson Battle III, superattorney turned city councilman, needs a wife now that his sights are set on the United States Congress. Or perhaps her lifelong mate is Quinton Jamison, a multimillionaire textile guru twenty years her senior. Only time—or the lack of it—will tell.

Fasten your seat belts, lift your tray tables up, and prepare for takeoff. Our final destination: THE ALTAR!

Five Star Billionaire

A Novel

From Tash Aw, an expansive, eye-opening novel that captures the vibrancy of China today.

Phoebe is a factory girl who has come to Shanghai with the promise of a job—but when she arrives she discovers that the job doesn't exist. Gary is a country boy turned pop star who is spinning out of control. Justin is in Shanghai to expand his family's real estate empire, only to find that he might not be up to the task. He has long harbored a crush on Yinghui, a poetry-loving, left-wing activist who has reinvented herself as a successful Shanghai businesswoman. Yinghui is about to make a deal with the shadowy Walter Chao, the five star billionaire of the novel, who with his secrets and his schemes has a hand in the lives of each of the characters. All bring their dreams and hopes to Shanghai, the shining symbol of the New China, which, like the novel's characters, is constantly in flux and which plays its own fateful role in the lives of its inhabitants.

Five Star Billionaire is a dazzling, kaleidoscopic novel that offers rare insight into the booming world of Shanghai, a city of elusive identities and ever-changing skylines, of grand ambitions and outsize dreams. Bursting with energy, contradictions, and the promise of possibility, Tash Aw's remarkable new book is both poignant and comic, exotic and familiar, cutting-edge and classic, suspenseful and yet beautifully unhurried.

Tao Lin

Taipei

A Novel

From one of this generation's most talked about and enigmatic writers comes a deeply personal, powerful, and moving novel about family, relationships, accelerating drug use, and the lingering possibility of death.

Taipei by Tao Lin is an ode—or lament—to the way we live now. Following Paul from New York, where he comically navigates Manhattan's art and literary scenes, to Taipei, Taiwan, where he confronts his family's roots, we see one relationship fail, while another is born on the Internet and blooms into an unexpected wedding in Las Vegas. Along the way—whether on all-night drives up the East Coast, shoplifting excursions in the South, book readings on the West Coast, or ill-advised grocery runs in Ohio—movies are made with laptop cameras, massive amounts of drugs are ingested, and two young lovers come to learn what it means to share themselves completely. The result is a suspenseful meditation on memory, love, and what it means to be alive, young, and on the fringe in America, or anywhere else for that matter.

PRAISE FOR TAIPEI

"*Taipei* is a book without an ounce of self-pity, melodrama, or posturing, making the glacial Lin the perfect poster child for a generation facing—and failing to face—maturity."

—Publishers Weekly ★ Review

"*Taipei* mashes up the literatures of intoxication (a la Irvine Welsh) and ennui (a la Bret Easton Ellis) to produce a surprisingly clearheaded cautionary tale about a drug-loving young Taiwanese-American art-and-book-world scenerunner trying to navigate the more consequential realms of family, romance, and adulthood." —*Elle*

"With *Taipei* Tao Lin becomes the most interesting prose stylist of his generation." —BRET EASTON ELLIS

Karen Chance

Tempt the Stars

Book Six in the Cassandra Palmer Series

Cassie finds that being a goddess isn't without its difficulties, in the sixth installment of Karen Chance's Cassandra Palmer series.

Being a goddess is a lot less fun than you might think. Especially when you're only a half goddess, you only found out about it recently, and you still don't know what you're doing half the time. And when you've just used your not-so-reliable powers to burglarize the booby-trapped office of a vampire mob boss.

Yeah, that part sucks.

But that's just the tip of the iceberg for Cassandra Palmer, aka the Pythia, the freshly minted chief seer of the supernatural world. After all, Cassie still has to save a friend from a fate worse than death, deal with an increasingly possessive master vampire, and prevent a party of her own acolytes from unleashing a storm of fury upon the world. Totally just your average day at the office, right?

Thomas E. Sniegoski is the author of more than two dozen novels for adults, teens, and children, including the Remy Chandler series, the Fallen series, and the Billy Hooten: Owlboy books. His work as a comic book writer includes the *Bone: Quest for the Spark* novels, and *Stupid, Stupid Rat-Tails*, a prequel to Jeff Smith's award-winning comic book *Bone*. Thomas was born and raised in Massachusetts, where he still lives with his wife, LeeAnne.

Luke Daniels was born into a family of actors. Both his father and mother have been performing and teaching for almost five decades. It is because of their influence that, from a very young age, Luke and his two brothers often found themselves in rehearsal halls at repertory theatres all over the country; watching innumerable productions of *Much Ado*, *Julius Caesar*, and *Midsummer's*.

Thomas E. Sniegoski

A Hundred Words for Hate

Book Four in the Remy Chandler Series

Once he was known as the angel Remiel, but generations ago Boston PI Remy Chandler chose to renounce Heaven and live on Earth, where he found a secure place among us ordinary humans . . .

As an Angel, Remy Chandler possesses powers and skills he puts to good use in his chosen profession—but only if the situation calls for it. And the sudden reappearance of the Garden of Eden is definitely one such situation, since the seemingly benevolent Sons of Adam want him to find the Key to the Gates of Eden. But there are those who want the Gates to stay shut, for there is something terrible and dangerous buried in the Garden . . .

Caught between two warring factions of immortals, Remy must decide how to proceed: find the Key, or not? Desperate for help, he turns to a very old acquaintance—a fallen angel who is sometimes friend, sometimes foe, and always deadly.

Seducing the Highlander

Book Five in the McTiernay Brothers Series

Set in the Scottish Highlands in the early fourteenth century, this new novel in Sinclair's popular McTiernays Brothers series introduces Craig McTiernay, a man who is willing to place duty before love until he's enchanted by the last woman he expects.

Meriel Schellden knows that marrying Craig McTiernay will strengthen the ties between their clans. She insists she is motivated by duty and responsibility, nothing more. But when a mere formality becomes a kiss far from platonic, Meriel must question where her true intentions lie.

Though Meriel entices him far more than she realizes, Craig's commitments have always kept his passions restrained. But no sense of duty to his clan can make Craig forget the way Meriel's touch left him teased, tantalized, and desperate for more. Now, as a surprising rival contends for Meriel's affections, there has never been a better time to listen to what his heart has desired all along.

The Mackenzies gather for a clan Christmas and Hogmanay in Scotland. In the chaos of preparations for the celebration—the first of Hart and Eleanor's married life—one of Ian's Ming bowls gets broken, and the family scrambles to save the day. Daniel busily runs a betting ring for everything from the hour Eleanor's baby will arrive, to whether Mac's former-pugilist valet can win a boxing match, to who will be the first of the many guests to be caught under the mistletoe. Ian begins a new obsession, and Beth fears that the loss of one of his precious bowls has made him withdraw once more into his private world.

The Mane Squeeze

Book Four in the Pride Series

In Shelly Laurenston's laugh-out-loud funny, deliciously sexy novel, a shape-shifting grizzly and a single dangerous feline collide—and discover untamed, unstoppable attraction.

Growing up on the tough Philly streets, Gwen O'Neill has learned how to fend for herself. But what is she supposed to do with a nice, suburban Jersey boy in the form of a massive grizzly shifter? Especially one with a rather unhealthy fetish for honey, moose, and . . . uh . . . well, *her*. Yet despite his menacing ursine growl and four-inch claws, Gwen finds Lachlan "Lock" MacRyrie cute and really sweet. He actually watches out for her, protects her, and unlike the rest of her out-of-control family manages not to morbidly embarrass her. Too bad cats don't believe in forever.

At nearly seven feet tall, Lock is used to people responding to him in two ways: screaming and running away. Gwen—half lioness, half tigress, all kick-ass—does neither. She's sexy beyond belief and smart as hell, but she's a born protector. She watches out for the family and friends closest to her but misses the fact that she's being stalked by a murderous enemy who doesn't like hybrids . . . and absolutely hates Gwen. Lock probably shouldn't get involved, but he will. Why? Because this is Gwen—and no matter what the hissing, roaring, drape-destroying feline says about not being ready to settle down, Lock knows he can't simply walk away. Not when she's come to mean absolutely *everything* to him.

The Longings of Wayward Girls

A Novel

In this atmospheric novel from award-winning author Karen Brown, Sadie's childhood was marked by the unexplained disappearance of a neighborhood girl. Many years later, she is still haunted by the events of that summer.

It's an idyllic New England summer, and Sadie is a precocious only child on the edge of adolescence. It seems like July and August will pass lazily by, just as they have every year before. But one day, Sadie and her best friend play a seemingly harmless prank on a neighborhood girl. Soon after, that same little girl disappears from a backyard barbecue—and she is never seen again. Twenty years pass, and Sadie is still living in the same quiet suburb. She's married to a good man, has two beautiful children, and seems to have put her past behind her. But when a boy from her old neighborhood returns to town, the nightmares of that summer will begin to resurface, and its unsolved mysteries will finally become clear.

Caroline Linden

Love and Other Scandals

With *Love and Other Scandals*, bestselling and RITA Award-winning author Caroline Linden launches a scandalously sexy new historical romance series set in Regency England.

Joan Bennet has endured four seasons without a single suitor or serious flirtation, let alone a marriage proposal. She's had just about enough of being a respectable wallflower and is giving serious thought to embarking on a life of sin, or at least lascivious adventure like the ones described in a popular scandalous book. When she meets her brother's favorite drinking mate, Viscount Burke, it seems her hopes of adventure might be answered . . .

Tristan Burke doesn't want a wife, and one can't trifle with a friend's sister without risking marriage. Even more, Joan's the last sort of woman he would ever choose: droll, sharp-witted, and always unfashionably dressed. If only he could stop thinking about her mouth. Or what she might look like without those horrid clothes. Or the way he can only win an argument with her by kissing her senseless . . . even though that just makes him want her more. But more could lead to a betrothal, which he fears—or does he?

After college, Gabrielle Dane makes one terrific mistake. Thinking she's sneaking into her crush's bedroom at an all-night college party, she ends up sleeping with her older brother's best friend. It's only when the sun comes up that she recognizes Holden Bellamy. Mortified, Gabrielle leaves to train with a renowned chef in France, vowing never to return to her hometown and the awkwardness of her one-night stand mix-up. But several years later, she finds herself doing just that, and she runs smack into the delicious man who makes her catch her breath.

Holden Bellamy, owner of Belle Ami, a critically acclaimed vineyard, has always had a thing for his best friend's little sister . . . even if she was off-limits. Waking up to her in the morning several years back was a remarkable surprise, one that crashed and burned when she left town without a word. Now he's face-to-face with the woman he never stopped wondering about.

The attraction between Gabrielle and Holden still sizzles, even after all these years. But having just experienced serious breakups, neither one is ready to start again. Instead, they make a rebound pact. Casual sex, no strings attached—and rule #1? Don't fall in love. Problem is, with each scorching encounter, Gabrielle and Holden find themselves falling hard and fast.

Music of the Heart

In the latest novel from *New York Times* bestselling author Katie Ashley, Jack Slater, the bad boy lead singer of Runaway Train, finds an unlikely ally in country songstress Abby Renard. Contains mature themes.

For Abby Renard, the plan was supposed to be simple—join her brothers' band on the last leg of their summer tour and decide if she's finally ready for the limelight. Of course, she never imagined that stumbling onto the wrong tour bus at Rock Nation would accidentally land her in the bed of Jake Slater, the notorious womanizing lead singer of Runaway Train. When he mistakes her for one of his groupies, Abby quickly lets him know she sure as hell isn't in his bed on purpose.

Jake Slater never imagined that the angel who fell into his bed would resist his charms by promptly kneeing him in the balls. Of course, the fact that she seems like a prissy choir girl makes her anything but his type. So he is more than surprised when, after betting Abby that she won't last a week on their tour bus, she is more than willing to prove him wrong. But as Jake's personal life begins to implode around him, he finds an unlikely ally in Abby. He's never met a woman he can talk to, joke with, and most importantly, make music with.

As the week comes to a close, neither Abby nor Jake is ready to let go. Can a sweetheart country songstress and a rock 'n' roll bad boy actually have a future together?

Rocky Mountain Haven

Book Two in the Six Pack Ranch Series

In the second novel in the Six Pack Ranch series, Beth Danube, a woman with a complicated past, meets a man who reignites her desire and helps her overcome her fear of intimacy. Contains mature themes.

Beth Danube's emotionally abusive husband is dead and buried. So is her heart. It's no big deal, she has all she wants: her three little boys and a fresh start in a small Alberta town. What she doesn't want is another man in her life—not now, maybe not ever.

After ten years of unsatisfactory, missionary-position sex, she never expected her libido to reawaken. One look at sex-in-boots Daniel Coleman in a Calgary bar, though, blows the dust off her sexuality.

Sensing an edge of desperation, even fear, beneath Beth's come-on, Daniel finds himself giving in to the powerful urge to let his normally subdued desires run wild. The lady wants non-judgmental, non-vanilla sex? She's got it—in and out of the bedroom.

At first, friends with blazing-hot benefits is more than enough. Then she realizes Daniel is burning away the protective fortress around her heart . . . and the guilty secret she dare not reveal.

Vivian Arend is the *New York Times* and *USA Today* bestselling author of both contemporary and paranormal fiction, including the Takhini Wolves series, the Granite Lake Wolves series, and the Forces of Nature books. She describes herself as adventurous and willing to try just about anything once. That wide-eyed attitude has taken her around North America, through parts of Europe, and into Central and South America, often with no running water.

Tatiana Sokolov narrates a variety of fiction but especially likes saucy romances.

Rocky Mountain Desire

Book Three in the Six Pack Ranch Series

In the latest installment of the Six Pack Ranch series, Matt Coleman finds himself falling for the sister of the woman who broke his heart. Contains mature themes.

Matt Coleman always figured that at this point in his life, he'd be settled down with a family. Since his ex split for the big city, though, no way will he give anyone else the chance to drop-kick his heart. Physical pleasure? Hell, yeah, he'll take—and give—with gusto, but nothing more.

Hope Meridan is working long hours to hold on to her new quilt shop, going it alone since her sister/business partner ran off. Sex? Right, like she's got the time. Not that she doesn't have the occasional dirty fantasy about Matt. Fat chance he'd dream of knocking boots with her—the younger sister of the woman who dumped him. Nope, she'll just have to settle for the F-word.

Friends would be far easier if there wasn't something combustible going on between them. And when casual interest starts to grow into something more, their tenuous bond strengthens in the heat of desire. But it may not survive the hurricane-force arrival of the last person either of them ever wanted to see again . . .

Book One in the Wanted Series

In the first book in Kelly Elliott's Wanted series, Gunner Matthews tries to convince Ellie Johnson to let go of the past and give their love a chance. Contains mature themes.

Verbally abused by her mother for years, 18-year-old Ellie Johnson always believed she would never be loved or wanted by anyone. She focused all of her attention on her grades and getting into the University of Texas to start a new life away from her mother. The last thing Ellie expected was to fall in love with Gunner Mathews, a starting linebacker for the University of Texas football team and not to mention, her brother's best friend.

Gunner only has two passions in life, football and his grandfather's ranch, until he falls for his best friend's little sister. He will stop at nothing to show Ellie how much he wants her, even if it means he has to move faster than she would like. Gunner knows they are meant to be together forever, but Ellie keeps denying her feelings out of fear of being hurt again. Every time he gets close to winning her love, something pushes her away again. Will Ellie ever be able to let go of the past and let him into her heart and will Gunner be patient enough to wait for her?

Wreck Me

Book One in the Wrecked Series

In this novel from J. L. Mac, Josephine tries to figure out the truth of her past as she draws closer to a man who seems strangely familiar. Contains mature themes.

Life can be cruel. People can be ruthless and evil. The world can be cold and uninviting. No one knows these things better than Josephine Geroux. By her own definition, she is a twenty-five-year-old “nobody with nothing,” and she is content to stay that way. Growing up an orphan has made her tough and indifferent to the people around her, until she meets a strangely familiar man with a face that haunts her for reasons she can’t understand. Despite the pain that will inevitably ensue, she makes it her mission to discover what parts of her tragic puzzle she is missing. On her journey to discovering why she feels an alarming connection to an absolute stranger, her greatest fear is reawakening the demons and darkness from the past that will surely overtake her if she lets her guard down. Little does Josephine know that the past should be the least of her worries. She is toying with a man who has already broken her heart once. She just doesn’t realize it. Although she makes it a point to avoid interactions with others, Josephine’s life becomes entangled with the enigmatic stranger. Before she realizes it, she has given herself over to the one person who is close enough to wreck her.

Book Two in the Wrecked Series

In the second installment of J. L. Mac's Wrecked series, Josephine Geroux wonders whether something conceived from tragedy and malice can end well. Contains mature themes.

Navigating the world alone is all Josephine Geroux has ever known. Life-altering tragedy struck early on for her. She learned the hard way how to adapt and survive.

After such chaos, maintaining a life free of complications is a priority for her. Everything changed when a man with amber eyes came through her door and claimed her heart. She fell hard in more ways than one. The pull between Jo and Damon seemed like fate bringing things full circle.

With another devastating loss looming, Jo fights to hold on to the very thing that brought her to her knees. She finds herself torn between a promising future and clinging to a devastating past. But that's not the most worrisome problem on her hands.

She must convince more than just herself to let the past stay in the past, where it belongs, but on her journey to find closure and resolution, she does the exact opposite. An old wound caused by a heinous act becomes exposed for what it is. The truth is catastrophic and Jo is helpless, watching as the ruins of her fragile world endure more turmoil.
