Zoo Story

Life in the Garden of Captives

Animals Make Us Human meets *An Inconvenient Truth*: a Pulitzer Prize-winning journalist goes behind the scenes at one of the country's most popular—and most controversial—destinations: a zoo.

Welcome to the savage and surprising world of *Zoo Story*, an unprecedented account of the secret life of a zoo and its inhabitants, both animal and human. Based on six years of research, the book follows a handful of unforgettable characters at Tampa's Lowry Park Zoo: an alpha chimp with a weakness for blondes, a ferocious tiger who revels in Obsession perfume, and a brilliant but tyrannical CEO known as El Diablo Blanco.

Zoo Story crackles with issues of global urgency: the shadow of extinction, humanity's role in the destruction or survival of other species. More than anything else, though, it's a dramatic and moving true story of seduction and betrayal, exile and loss, and the limits of freedom on an overcrowded planet—all framed inside one zoo reinventing itself for the twenty-first century.

Zoo Story shows us how these remarkable individuals live, how some die, and what their experiences reveal about the human desire to both exalt and control nature.
